

MEHAL JAIN

INTERIOR DESIGNER

ABSTRACT ARTIST

I THINK

My passion for design is not to just limit it for its aesthetical values. I believe in diving deep rather than going wide. Because, curiosity did NOT kill that cat. I aim to provide solutions which can, in some way, help the lives around me.

I DON'T WANT

To just get a job. I am hungry for THE job. I am keen on exploring things beyond the obvious and walking an extra mile to prove that hiring me has been a good decision.
